Please NOTE: It is not possible to charge other devices while charging the power bank, because that will cause detrimental effects on the lifespan of the power bank.

Customer reviews

4.3 out of 5

8,010 global ratings

How customer reviews and ratings work

Customers say

Customers appreciate the power bank's compact size, comparing it to the size of a credit card, and find it perfect for travel, particularly noting how it fits in pockets for heated scarves. The product receives positive feedback for its quality, value for money, and lightweight design. However, the charging speed and reliability show mixed results - while some find it great for charging phones, others report it stops working after the first use. Similarly, battery life is mixed, with some saying it lasts a long time between charges while others report it only lasts about an hour.
